

§ 930.34 Federal agency consistency determinations.

(a) Federal agencies shall provide State agencies with consistency determinations for all Federal activities directly affecting the coastal zone. The Federal agency may provide the State agency with this information in any manner it chooses so long as the requirements of this subpart are satisfied.

(b) Federal agencies shall provide State agencies with a consistency determination at the earliest practicable time in the planning or reassessment of the activity. A consistency determination should be prepared following development of sufficient information to determine reasonably the consistency of the activity with the State's management program, but before the Federal agency reaches a significant point of decisionmaking in its review process. The consistency determination shall be provided to State agencies at least 90 days before final approval of the Federal activity unless both the Federal agency and the State agency agree to an alternative notification schedule.

§ 930.35 Federal and State agency coordination.

(a) State agencies should list in their management programs Federal activities which, in the opinion of the State agency, are likely to directly affect the coastal zone and require a Federal agency consistency determination. Listed Federal activities must be described in terms of the specific type of activity involved (e.g., Federal reclamation projects). In the event the State agency chooses to describe Federal activities outside of the coastal zone but likely to directly affect the coastal zone, it must also describe the geographic location of such activities (e.g., reclamation projects in coastal floodplains).

(b) State agencies should monitor unlisted Federal activities (e.g., by use of intergovernmental review process established pursuant to E.O. 12372, review, review of National Environmental Policy Act (NEPA) environmental impact statements, etc.) and

should notify Federal agencies of unlisted Federal activities which Federal agencies have not subjected to a consistency review but which, in the opinion of the State agency, directly affect the coastal zone and require a Federal agency consistency determination. State agencies must notify Federal agencies within 45 days from receipt of notice of the unlisted Federal activity, otherwise the State agency waives its right to request a consistency determination. The waiver does not apply in cases where the State agency does not receive notice of the Federal activity (e.g., for those Federal activities which are not processed through Intergovernmental Review Process established pursuant to E.O. 12372, NEPA review or a similar procedure which permits State agency monitoring).

(c) The recommended listing and monitoring procedures described in paragraphs (a) and (b) of this section are neither a substitute for nor eliminate Federal agency responsibility under §§ 930.33(b) and 930.34 to provide State agencies with consistency determinations for all development projects in the coastal zone and for all other Federal activities which the Federal agency finds directly affect the coastal zone.

(d) If a Federal agency decides that a consistency determination is not required for a Federal activity (1) identified by a State agency on its list or through case-by-case monitoring, (2) which is the same as or similar to activities for which consistency determinations have been prepared in the past, or (3) for which the Federal agency undertook a thorough consistency assessment and developed initial findings on the effects of the activity on the coastal zone, the Federal agency shall provide the State agency with a notification, at the earliest practicable time in the planning of the activity, briefly setting forth the reasons for its negative determination. A negative determination shall be provided to the State agency at least 90 days before final approval of the activity, unless both the Federal agency and the State
